If it isn't possible measure your own bike, please measure your inside leg length / inseam:

- Your leg length or bicycle inseam is different than clothing inseam or jean size.
- Start by removing your shoes.
- Stand with your back against the wall, feet about shoulder width apart.
- Put a large book between your legs, with it's spine firmly up against your crotch.
- Have someone measure from the floor to the spine of the book.
